

TC ID	Test Scenario	Test steps	Test Data	Expected result	Status
TC-001	Verify page loads successfully.	Open the Random integers generator page.	url: https://www.random.org/integers/	Page loads without error. OK	Pass.
TC-002	Generate a single random number.	Enter valid values and click on Numbers.	Num=1, Min=1, Max=100	One random number between 1 and 100 is displayed.	Pass.
TC-003	Generate multiple random numbers.	Enter the valid values (range).	Num=10, Min=1, Max=50	Ten random numbers between 1 and 50 are displayed.	Pass.
TC-004	Verify Minimum values.	Enter minimum and maximum as the same value.	Num=1, Min=10, Max=10	Output should be 10.	Pass.
TC-005	Verify negative numbers.	Enter negative range.	Num=5, Min=-10, Max=-10	Five random numbers between -10 and -1 are displayed.	Pass.
TC-006	Verify invalid range.	Enter Min greater than Max.	Num=5, Min=10, Max=10	Error message should be displayed.	Pass.
TC-007	Verify blank fields.	Leave all fields empty.	Num="", Min="", Max=""	Validation error message should appear.	Pass.
TC-008	Verify non-numeric input.	Enter alphabetic.	Num=ABC, Min=1, Max=100	Validation error message should appear.	Pass.
TC-009	Verify zero number reverts.	Enter zero in num field.	Num=0, Min=1, Max=100	Validation error message should appear.	Pass.
TC-010	Verify large number generation.	Enter a large count.	Num=10000, Min=1, Max=10000	10000 random numbers are generated successfully.	Pass.
